Abstract

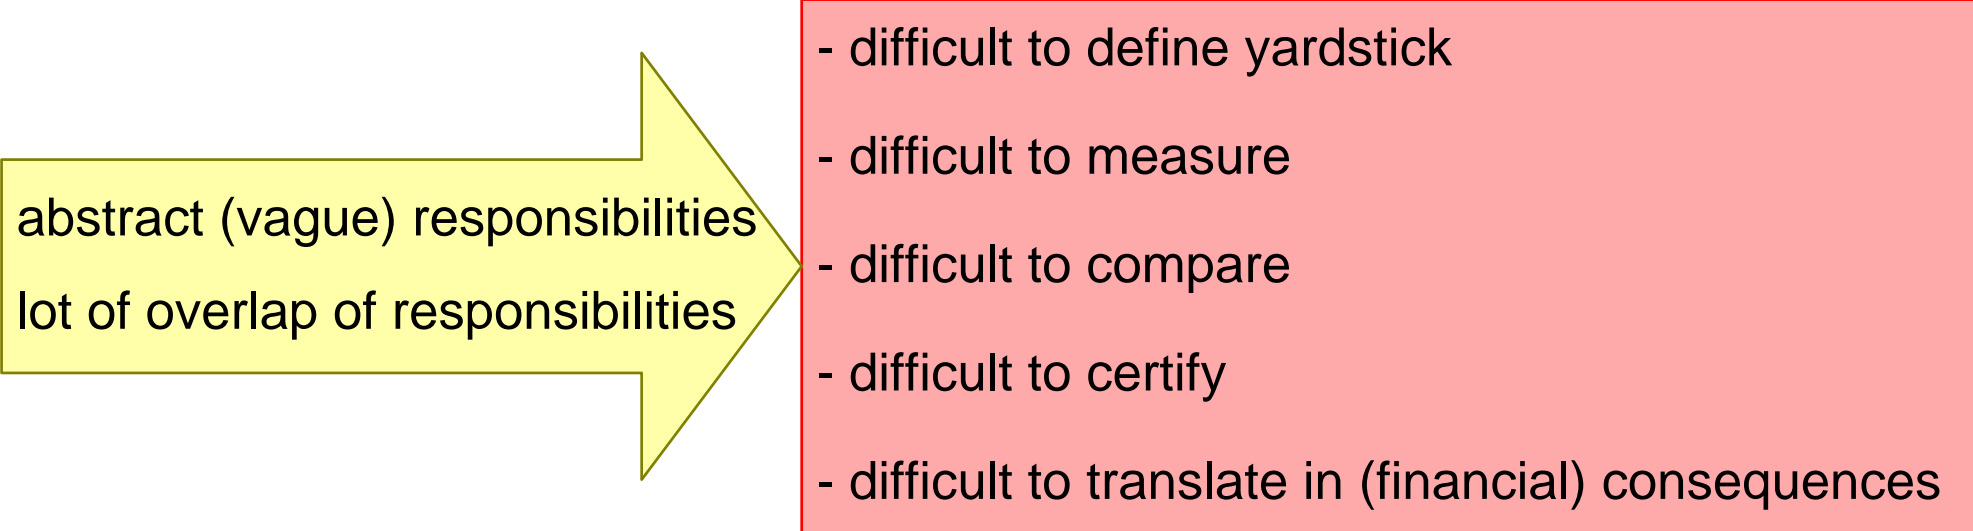

The appraisal of system architect is handicapped by the vague and abstract responsibilities of the system architect. The success criterions for architecting are discussed. An approach to "measure" or assess the architect is described.

Distribution

This article or presentation is written as part of the Gaudí project. The Gaudí project philosophy is to improve by obtaining frequent feedback. Frequent feedback is pursued by an open creation process. This document is published as intermediate or nearly mature version to get feedback. Further distribution is allowed as long as the document remains complete and unchanged.

abstract (vague) responsibilities
lot of overlap of responsibilities

- difficult to define yardstick
- difficult to measure
- difficult to compare
- difficult to certify
- difficult to translate in (financial) consequences
