Abstract

Digitalization causes many transitions concurrently, e.g. the systems, products, or services themselves change, the way organizations develop and deploy them changes, and the way customers and society behave changes. In this session, we explore systems leadership in this dynamic and complex context.

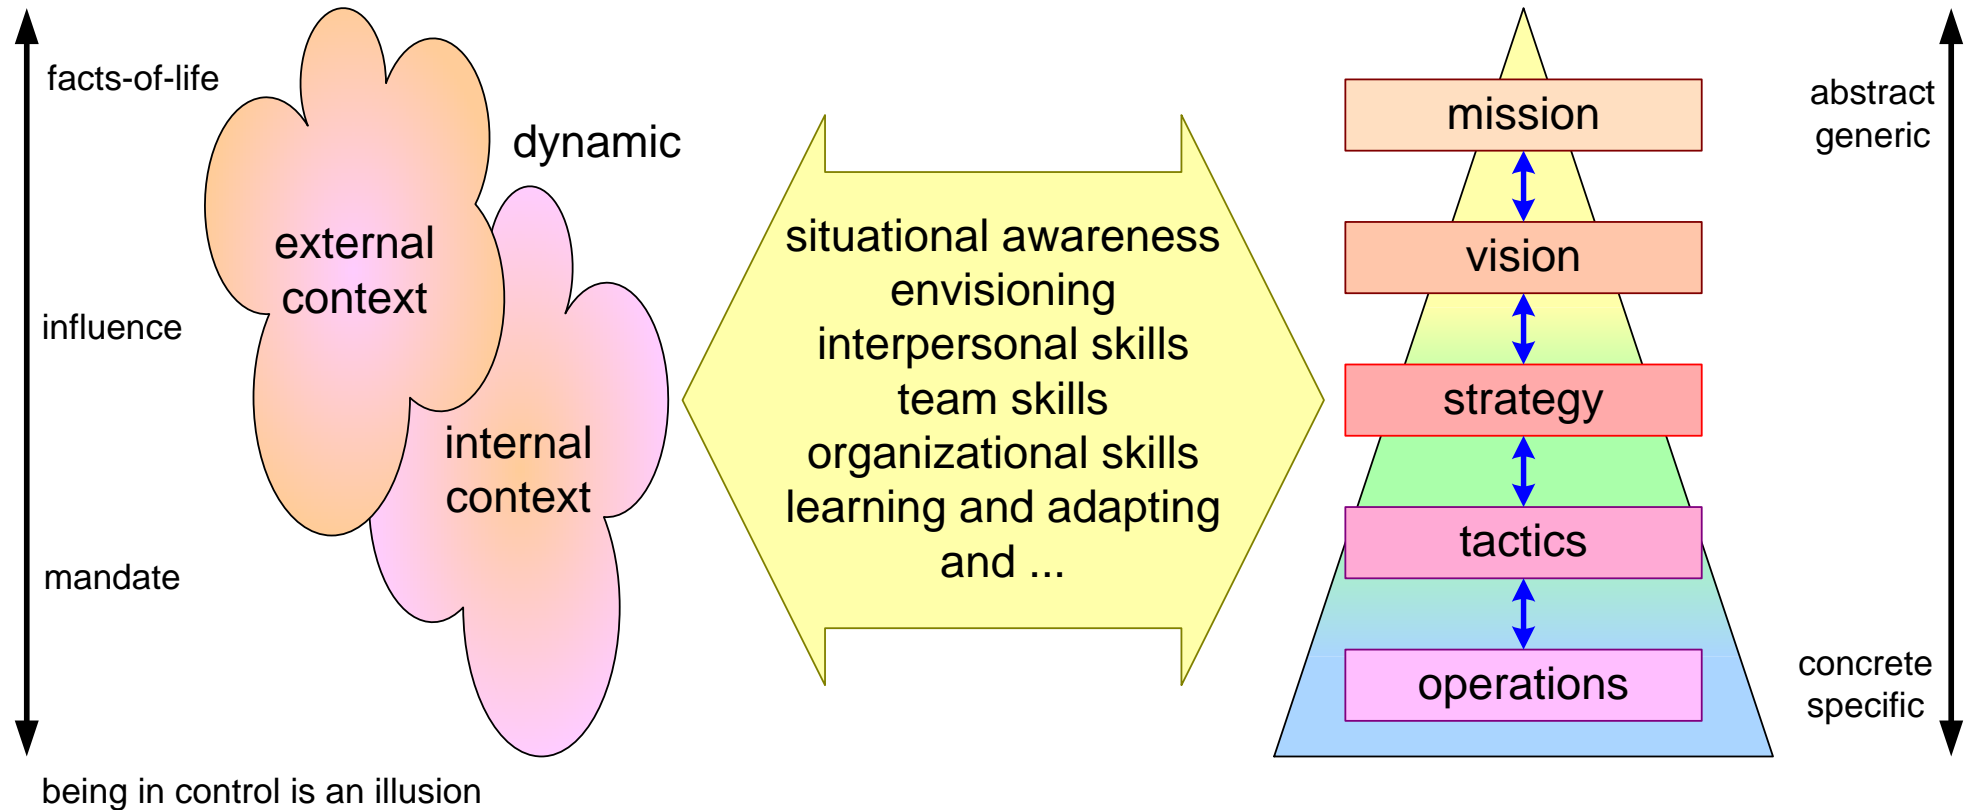

Distribution

This article or presentation is written as part of the Gaudí project. The Gaudí project philosophy is to improve by obtaining frequent feedback. Frequent feedback is pursued by an open creation process. This document is published as intermediate or nearly mature version to get feedback. Further distribution is allowed as long as the document remains complete and unchanged.
