

CTT Course System Architecture (SARCH) Wrap Up; module 10

by *Gerrit Muller*

Philips Research IST-SWA-IA

Abstract

This module addresses the Wrap Up of the course System Architecture

4th January 2002
status: planned
version: 0

Distribution

This article or presentation is written as part of the Gaudí project. The Gaudí project philosophy is to improve by obtaining frequent feedback. Frequent feedback is pursued by an open creation process. This document is published as intermediate or nearly mature version to get feedback. Further distribution is allowed as long as the document remains complete and unchanged.

Exercise Wrap Up

Make a personal improvement "roadmap" (a many year vision) and a personal improvement plan (feasible and visible first steps).

- Identify needed improvements, which can be influenced by yourself.
- Determine what you need to do to trigger the improvement and whom needs to be involved.
- Try to link your improvements to the rest of the business, for instance to planned products, conferences, platform releases or whatever recognizable anchor is available.
